

AV4210™ Multi-Foliate

- Lead "Wisconsin" product with multi-leaf expression
- Excellent disease protection package with a 30/30 DRI
- AV 4210 has superior quality potential for top dairy producers
- Solid winter survival score protects against winter injury

CHARACTERISTICS

CUTTING RECOVERY	Good
YIELD LEVEL	Very Good
FORAGE QUALITY	Very Good
WHEEL TRAFFIC	Good
WINTER SURVIVAL	1.4
FALL DORMANCY	4.2
DROUGHT TOLERANCE	Very Good
ROOT TYPE	Tap

DISEASE TOLERANCE

BACTERIAL WILT	Highly Resistant
FUSARIUM WILT	Highly Resistant
PHYTOPHTHORA ROOT ROT	Highly Resistant
VERTICILLIUM WILT	Highly Resistant
ANTHRACNOSE	Highly Resistant
APHANOMYCES1	Highly Resistant
APHANOMYCES2	Susceptible
DRI	30/30

NOTES: _____

IMPORTANT: Characteristic scores provide key information useful in selecting and managing products in your area. Information and ratings are based on comparisons with other products sold by AgVenture, Inc.. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision.

Corteva™ Agriscience, Agriculture Division of DowDupont, is a member of Excellence Through Stewardship® (ETS).

Corteva products are commercialized in accordance with ETS Product Launch Stewardship Guidance and in compliance with the Corteva policies regarding stewardship of those products. Crops and materials containing biotech traits may only be exported to or used, processed, or sold in jurisdictions where all necessary regulatory approvals have been granted for those crops and materials. It is a violation of national and international laws to move materials containing biotech traits across borders into jurisdictions where their import is not permitted. Growers should discuss these issues with their purchaser or grain handler to confirm the purchaser or handler's position on products being purchased. For further information on the approval status of biotech traits, please visit www.biotradestatus.com.
